### **Assessment of Diversity Proficiencies: Educational Leadership**

#### Educational Leadership Assessment of Diversity

The Assessment of Diversity in our ELCC recognized Educational Leadership Program can be found in ELCC Standard six which involves the promotion of all students by understanding, responding to, and influencing the larger political, social, economic, legal, and cultural context. ELCC Standard six is measured by multiple assessments within the Educational Leadership Program. These assessments include a comprehensive written synthesis of knowledge exam, a major project in clinical practice involving practical application, an evaluation by the site mentor during clinical practice, and the assessment of multiple portfolio embedded administrative exercises. The most recent data available indicate that candidates in the educational leadership program successfully achieve ELCC Standard six and have the ability to promote the success of all students by understanding, responding to, and influencing the larger political, social, economic, legal, and cultural context.
