About IT

The Office of Information Technology provides support for a variety of technology needs, including: user accounts, ID cards, online systems, wired and wireless networks, e-mail, computer labs, phones, equipment loans, classroom technology and more. We also offer academically discounted software and hardware to students at our IT help desk.

We encourage you to visit our website for the most up-to-date and accurate information.

NU E-mail

NU offers e-mail to all NU students as part of our partnership with Google and their Google Apps suite. It is available at http://apps.niagara.edu and you should check it regularly. It is an official way for NU to contact you.

Your e-mail address is located in the "My Profile" box of myNU, and will also be provided in the New Student Portal if you are an incoming freshman.

ID Cards

ID card assistance is available at the IT help desk. ID’s are used for building entry and purchasing items on and off campus. You can add funds to your card at cash-to-card machines located in the Gallagher Center and the library, or online at: www.niagara.edu/olco.

PurplePass

At NU, one username and password gets you into all of our systems. We call it the PurplePass, and if you haven’t received yours already in the mail, you can activate it at http://www.niagara.edu/purplepass-account. Initially, once activated, you’ll be given a random password to use. You should change this as soon as possible. Your PurplePass username will be an “s” followed by your 7-digit NU student ID number (ex. s0928389).
