Course Announcement

**Natural Gas - Carbon Monoxide Emergency Control**

February 21, 2013
10:00am – 12:00pm

National Fuel Gas will be conducting Natural Gas---Carbon Monoxide Emergency Control at the Niagara County Law Enforcement Academy. The program is specifically designed to provide informational training to law enforcement and first responders.

This program is a live presentation that uses videos and practical demonstrations as well as lecture, to instruct participants in the properties and characteristics of natural gas. In addition, information concerning proper response to a variety of natural gas emergency situations is provided. A section is included on Carbon Monoxide responses and CO detectors.

There is no cost for this course. The seating for this course is limited. Acceptance and attendance must be confirmed by the Academy Staff.

**Location:** Niagara County Law Enforcement Academy, Niagara University, Marian House, Niagara University, New York 14109.

**Enrollment:** Registration can be done by email to: nclea@niagaracounty.com

For additional info or for students in need of special assistance, please call the Academy at 716-286-8759.

Sincerely,

Sgt. Jill Herrington
Co-Director
