ALUMNI STORIES

Jerry Ognibene, '59: A Life on Display

Several years ago, when Jerry Ognibene, ‘59, retired from his career in higher education, he began building a model train layout with his wife of 52 years, Rosemary (affectionately known as “Bunny”). The couple included replicas of places that were meaningful to them throughout their early lives, including childhood homes, movie theatres, shops, and yes, even Niagara University. Spanning an area representing Bunny’s hometown of Buffalo to Jerry’s of North Collins, the 12 foot by 6 foot layout features country settings, a cityscape, and Niagara’s Clet Hall in the center, above a ravine that resembles the Niagara River Gorge. Although Jerry admits to taking artistic license with the layout, he spent the Fourth of July atop the peak of Cotopaxi volcano in Ecuador.

Join us at the Dutch Hollow Country Club, 150 Benson Road, in Auburn, N.Y. Proceeds from the tournament will go toward the Father Albert Shamon Penafeather Scholarship Fund at Niagara University. For more information or to register, click here.
