SINGLE SIGN IN

The PurplePass is a single sign-on system that allows Niagara University students to use one username and password among several online systems and services. All current NU students will have a PurplePass created for them. Please refer to the FAQ below for more information.

### PurplePass Account Policy

Niagara University students that register for classes will have PurplePass account created for them. This provides access to several information systems on campus such as myNU, student email, lab computers, student web space, and more. Incoming freshmen will have accounts created for them prior to summer orientation to enable them to register online for their first semester classes. These accounts are limited to currently registered students and will be purged when that condition is not met.
