Information on out of state requirements and differences

2017-18 Comments

I did not have the greatest ending of my program and was advice not advised on how to make my field work fit the correct criteria of the school. This experience left me with an unfortunate outlook in pursuing school counseling.

Stronger focus on special ed populations. More exposure to IEPs. Counselors are often expected to push into classrooms to provide social emotional lessons and many of us have no teaching experience. Exposure to basic educational techniques would be helpful. Lacking knowledge about scheduling, etc. Exposure to software like PowerSchool, IEP Direct, etc would be helpful.

Find some professors who have recently been employed as a school counselor. My own experience taught me better than most of the coursework at NU.
